In addition, we have excellent relationships with many of the top Regional Centers and pass this experience on to our clients who are considering the Regional Center Visa Program as their EB-5 option.

OVERVIEW OF EB-5 REGIONAL CENTER VISA PROGRAM:

The EB-5 Investment based immigration program is designed for those investors with sufficient resources to petition themselves and their families for Permanent Residency. The U.S Government has consistently supported the EB-5 program in its ability to add to the U.S economy both financially and in terms of job creation.

Over the past few years, the United States has made a number of important changes to the laws governing the EB-5 program, and these changes have greatly helped the program to become an effective and reliable immigrant visa solution.

One important change allows for **an estimated 3,000 green cards which are set aside each year specifically for foreign investors** who invest in “designated Regional Centers.”
